13 AMERICAN TOWER
 14 CORPORATION, A DELAWARE
 15 CORPORATION,

16 Plaintiff,

17 vs.

18 THE CITY OF SAN DIEGO,
 19 CALIFORNIA, A POLITICAL
 20 SUBDIVISION OF THE STATE OF
 21 CALIFORNIA,

22 Defendant.

Case No.

'08 CV 0864 JM WMc

COMPLAINT FOR DECLARATORY
 RELIEF, WRIT OF MANDAMUS,
 DAMAGES, COSTS, AND ATTORNEYS'
 FEES

BRIEF STATEMENT OF THE CASE

1
2 1. Plaintiff American Tower Corporation, a Delaware corporation ("ATC"), hereby
3 complains against Defendant, the City of San Diego, California, a political subdivision of the
4 State of California ("City") and brings this action to redress and to remedy the City's violation of
5 federal and state laws in its denial of Conditional Use Permit ("CUP") No. 296127 ("30th Place
6 CUP") and Planned Development Permit ("PDP") No. 453612 related to a 130-foot monopole
7 supporting wireless telecommunication antennas (the "30th Place Facility") located in the vicinity
8 of 797 1/3 30th Place in the City. In addition, ATC brings this action to redress and to remedy
9 the City's violation of federal and state laws in its denial of Conditional Use Permit ("CUP") No.
10 292627 ("Mt. Ada CUP") and Site Development Permit ("SDP") No. 450714 related to a 145-
11 foot monopole supporting wireless telecommunication antennas (the "Mt. Ada Facility") located
12 in the vicinity of 6426 Mt. Ada Road in the City and the City's failure to grant ATC's request for
13 a PDP in connection with its Mt. Ada CUP application.

14 2. ATC seeks a declaration from the Court that the decision issued by the San Diego
15 City Council ("City Council") on ATC's appeal of the denial by the City's Planning Commission
16 (the "Planning Commission") of the 30th Place CUP and PDP, the City Council's denial of the
17 Mt. Ada CUP and SDP, and the City Council's failure to consider ATC's request for a PDP for
18 the Mt. Ada Facility violate the federal Communications Act of 1934 as amended by the
19 Telecommunications Act of 1996 (as so amended, the "Communications Act"), specifically
20 multiple provisions of 47 U.S.C. § 332. ATC also seeks a declaration that the City's actions are
21 violative of ATC's rights under the Equal Protection Clause of the Fourteenth Amendment to the
22 U.S. Constitution. Additionally, ATC seeks a declaration that the permits sought by ATC are
23 deemed granted under the California Permit Streamlining Act, California Government Code §§
24 65920 *et seq.* ("PSA") (or in the alternative a writ of mandate ordering the City to issue the CUPs
25 and/or such other permit or permits as may be necessary for the continued maintenance and
26 operation of ATC's 30th Place Facility and Mt. Ada Facility), as well as damages, attorney's fees
27 and costs.

28 3. There is currently pending before this Court a related action brought by ATC

1 against the City and certain related defendants (*American Tower Corporation v. City of San*
2 *Diego, et al.*, Case No. 07cv0399 LAB (NLS)) and a second related action brought by ATC,
3 TMO CA/NV, LLC and Omnipoint Communications, Inc. against the City (*American Tower*
4 *Corporation, et al. v. City of San Diego, et al.*, Case No. 08cv0435 LAB (NLS))

5 JURISDICTION AND VENUE

6 4. This action arises under the laws of the United States and the State of California,
7 including the federal Supremacy Clause, U.S. Const. art. VI, cl. 2; the Fourteenth Amendment to
8 the United States Constitution; the Communications Act, 47 U.S.C. §§ 151 *et seq.*, and the
9 California Permit Streamlining Act, California Government Code §§ 65920 *et seq.* The Court
10 has primary jurisdiction over federal law claims pursuant to 28 U.S.C. § 1331 (federal question
11 jurisdiction) and over state law claims pursuant to 28 U.S.C. § 1332 (diversity jurisdiction).
12 Plaintiff and Defendant are citizens of different states, and the amount in controversy and the
13 value of the rights at issue in this action exceed the sum of \$75,000 exclusive of interest and
14 costs. The Court also has supplemental jurisdiction over state law claims pursuant to 28 U.S.C.
15 § 1367. The Court's authority to grant declaratory relief is based upon 28 U.S.C. § 2201. The
16 Court's authority to grant mandamus relief is based upon its inherent authority under the
17 Communications Act or, in the alternative, California Code of Civil Procedure § 1094.5.

18 5. Venue is proper in this Court pursuant to 28 U.S.C. § 1391(b) because the
19 Defendant resides within the Southern District of California and a substantial part of the events
20 or omissions giving rise to the claim occurred within the Southern District of California.

21 PARTIES

22 6. Plaintiff ATC is a corporation duly organized, existing and operating under the laws
23 of the State of Delaware and is authorized to do, and is doing, business within the State of
24 California. ATC has its principal place of business at 116 Huntington Avenue, Boston,
25 Massachusetts 02116. ATC is an independent owner, operator and developer of broadcast and
26 wireless communications sites in the United States, Mexico and Brazil. ATC owns and operates
27 over 22,000 sites in the United States, Mexico and Brazil. Additionally, ATC manages
28 approximately 2,000 rooftop and tower sites owned by other parties.

7. ATC owns or manages telecommunications infrastructure, including telecommunication towers such as the Mt. Ada Facility and the 30th Place Facility (the "Denied Facilities"), and its customers are usually wireless carriers, that is, providers of personal wireless services or commercial mobile radio services, and include, among others, Sprint-Nextel Corporation, AT&T, Verizon Wireless, T-Mobile, MetroPCS Communications, Inc., and Leap Wireless International, LLC (doing business in the San Diego market under the trade name "Cricket"). ATC's infrastructure constitutes "personal wireless service facilities" within the ambit of 47 U.S.C. § 332(c)(7)(B).

8. Defendant City of San Diego, California is a charter city organized under the laws and Constitution of the State of California. In taking the actions complained of herein, the City acted through, among others, the City Council, the Planning Commission, the Development Services Department ("DSD") and certain staff, employees and agents responsible to these entities.

FACTUAL BACKGROUND

I. ATC'S CONDITIONAL USE PERMITS

9. The 30th Place Facility was constructed by ATC's predecessor in interest pursuant to CUP No. 84-0469 (the "Original 30th Place CUP"), which was granted by the City Council on November 20, 1984. A true and correct copy of the Original 30th Place CUP is attached as Exhibit 1.

10. The Mt. Ada Facility was constructed by ATC's predecessor in interest pursuant to CUP No. 83-0629 (the "Original Mt. Ada CUP"), which was granted by the City Council on November 20, 1984. A true and correct copy of the Original Mt. Ada CUP is attached as Exhibit 2.

11. Both the Original 30th Place CUP and the Original Mt. Ada CUP contemplated extensions of their terms, specifically providing, "If an extension is requested, the operation and conditions shall be reviewed at public hearings by the Planning Commission and City Council."

12. Over the past several years, the City has revised its regulatory scheme and sought to impose on ATC and its tenants an increasingly burdensome regulatory structure. Despite the

1 language in the Original 30th Place CUP and the Original Mt. Ada CUP specifically
2 contemplating extensions thereof and numerous examples of the City having granted extensions
3 with respect to other CUPs governed by the same provisions of the City's Land Development
4 Code as the Denied Facilities, the City has claimed it does not permit extensions and has refused
5 to allow ATC to renew or extend its CUPs. The City's DSD staff has repeatedly asserted that the
6 revised regulations require ATC either to remove its Facilities or to reduce and replace its
7 Facilities with decorative or architecturally designed structures at substantially reduced height
8 and at tremendous cost and impact to ATC and its tenants.

9 **13.** The City claims that its regulations classify the Denied Facilities as "major
10 telecommunication facilities," which, under the City's existing nomenclature, are a subclass of
11 "communication antennas." In an effort to demonstrate good faith with the City and in order to
12 ensure the continued operation of the 30th Place, Mt. Ada and other Facilities, ATC filed multiple
13 CUP applications under protest, reserving its right to challenge the City's permitting
14 requirements ("Protest Applications"). ATC proposed in these Protest Applications to make
15 reasonable modifications to the landscaping and equipment, but ATC did not propose to lower
16 the Facilities or to replace the Facilities with decorative or new architecturally designed
17 structures.

18 **14.** On or about December 21, 2005 ATC, as successor in interest to the owner of the
19 30th Place Facility, submitted an application for an extension of the Original 30th Place CUP or,
20 in the alternative, a new CUP, and also requested approval of a PDP. ATC's completed General
21 Application form and Site Justification Letter, submitted as part of its application, are attached
22 hereto as Exhibit 3. The application was deemed complete on December 27, 2005. The City
23 determined that the project was exempt from the California Environmental Quality Act (Division
24 13 (commencing with Section 21000) of the Public Resources Code)) ("CEQA") on February 8,
25 2006. A true and correct copy of the City's Determination of Environmental Exemption is
26 attached as Exhibit 4. On June 28, 2007, at a properly noticed public hearing, the Planning
27 Commission voted to deny the CUP and PDP requested by ATC. This was the first time the City
28 had acted to approve or deny ATC's 30th Place CUP and PDP.

1 15. On or about December 9, 2005, ATC, as successor in interest to the owner of the
2 Mt. Ada Facility, submitted an application for an extension of the Original Mt. Ada CUP and
3 also requested approval of a PDP. ATC's completed General Application form and Site
4 Justification Letter, submitted as part of its application, are attached hereto as Exhibit 5. The
5 application was deemed complete on December 12, 2005. The City determined that the project
6 was exempt from CEQA on January 23, 2006. A true and correct copy of the City's
7 Determination of Environmental Exemption is attached as Exhibit 6. On April 14, 2008, at a
8 properly noticed public hearing, the City Council voted to deny the ATC's CUP and SDP. This
9 was the first time the City had acted to approve or deny ATC's Mt. Ada CUP. The City has not
10 yet acted to approve or deny the PDP requested by ATC for its Mt. Ada Facility.

11 16. In response to the Protest Applications, the DSD issued project assessment letters
12 ("Assessment Letters") that, among other things, imposed unlawful requirements on ATC that
13 created unreasonable delays in the processing of ATC's applications. ATC objected to the
14 findings in the Assessment Letters and sought meetings on several occasions with City staff to
15 address its objections. ATC has expended substantial time and resources in response to
16 directives arising out of these meetings only to find out that the City subsequently altered those
17 directives, adopted contradictory directives or disavowed having made its prior directives. To
18 avoid further delays, ATC requested that staff forward the Protest Applications to the Planning
19 Commission "as is." The DSD communicated to ATC that a recommendation of denial would
20 accompany the applications on grounds that staff could not make findings necessary to support
21 the applications, despite the fact that, earlier in the process, the City specifically represented to
22 ATC's representatives that staff had the discretion to recommend approval without requiring
23 replacement of the facilities.

24 17. On or about June 24, 2005, ATC's predecessor, SpectraSite Communications, Inc.,
25 met with Senior Planner Karen Lynch-Ashcraft and Planning Intern Simon Tse at the DSD to
26 discuss the renewal of its CUPs. Ms. Lynch-Ashcraft identified Mr. Tse as the principal point of
27 contact on CUP renewals. The goal of the meeting was to enlist the cooperation of the City in
28 moving renewals forward on a timely basis, to request that SpectraSite be allowed to prioritize

1 sites on the basis of expiration dates and new tenant interest and overall to demonstrate to the
2 City SpectraSite's desire to be upfront with the City in addressing renewal and compliance issues
3 and to work in partnership with tower tenants, the City staff and the community to achieve a
4 mutually satisfactory outcome.

5 18. In a follow-up e-mail communication, Mr. Tse reported to ATC, which had since
6 acquired SpectraSite, that three of the CUPs for which SpectraSite had sought renewal had
7 expired. In response to a SpectraSite inquiry regarding the amount of time it took to renew
8 CUPs, Mr. Tse responded: "In general, you are looking at a minimum of 6 months depending on
9 the project. If you have a specific site you are referring to let me know so I can get a better time
10 frame, but overall CUP renewals through commission hearings will take quite at least 6 months if
11 not more."

12 19. On or about March 20, 2006, ATC and several wireless carriers met with the City in
13 order to object to the oppressive conclusions drawn in the Assessment Letters and to discuss the
14 absence of City guidelines governing CUP renewals. At the conclusion of the meeting, the City
15 agreed to extend the terms of any expired CUPs to June 1, 2007. The purpose of the extension
16 was to give the City sufficient time to develop CUP renewal guidelines. Letter from Robert
17 Jystad to Mr. James Waring dated March 3, 2006, attached as Exhibit 7.

18 20. As indicated above, on June 28, 2007, the Planning Commission voted to deny the
19 30th Place CUP and PDP requested by ATC and to recommend that the City Council deny the
20 Mt. Ada CUP. On July 11, 2007, ATC timely appealed the Planning Commission's denial of the
21 30th Place CUP to the City Council. As part of its presentations to both the Planning
22 Commission and the City Council, ATC proposed certain modifications to the Denied Facilities
23 in an attempt to respond to the City's alleged concerns about aesthetics.

24 21. As indicated above, on April 14, 2008, the City Council denied the Mt. Ada CUP
25 and a related Site Development Permit. The City Council has never ruled on ATC's request for a
26 PDP made in connection with its requests for the Mt. Ada CUP. At that same April 14, 2008
27 hearing, the City Council also denied ATC's appeal of the Planning Commission's denial of its
28 30th Place CUP.

1 22. To date, despite its votes at the April 14, 2008 hearing, the City Council has failed
 2 to approve the minutes of such meeting or to issue a written resolution embodying its decision.
 3 Attached as Exhibit 8 is a true and correct copy of a document entitled "City Council Meeting
 4 Results" downloaded from the City's web site which evidences the votes of the City Council at
 5 its April 14, 2008 meeting. The document states: "This is a summary of the actions taken by the
 6 City Council. It is NOT equivalent to the Minutes which, when approved by the City Council,
 7 constitute the official record of the meeting."

8 23. The actions taken by the City Council on ATC's 30th Place CUP and Mt. Ada CUP
 9 are final and nonappealable to any higher authority within the City. ATC, therefore, is compelled
 10 to bring this litigation challenging the City's final decisions on ATC's applications as unlawful
 11 under federal and state law.

12 II. THE CITY OF SAN DIEGO LAND DEVELOPMENT CODE

13 24. ATC's applications for the 30th Place and Mt. Ada Facilities are governed by
 14 § 141.0405 of the City's Land Development Code as it was in effect prior to April 11, 2007
 15 ("Prior § 141.0405"). A true and correct copy of said section as then in effect is attached hereto
 16 as Exhibit 9.

17 25. Prior § 141.0405 governed Communication Antennas and imposed varying
 18 requirements on "minor telecommunication facilities" and "major telecommunication facilities."

19 26. Under Prior § 141.0405, "minor telecommunication facilities" were required to be
 20 "concealed from public view or integrated into the architecture or surrounding environment
 21 through architectural enhancements (enhancements that complement the scale, texture, color, and
 22 style), unique design solutions, or accessory use structures." San Diego Mun. Code
 23 § 141.0405(e)(1) as in effect prior to April 11, 2007.

24 27. In contrast, the requirements for approval of "major telecommunication facilities"
 25 (*i.e.*, communication antennas that did not qualify as "minor telecommunication facilities") other
 26 than certain locational restrictions not applicable to the Denied Facilities, were merely that they
 27 be "designed to be minimally visible through the use of architecture, landscape architecture, and
 28 siting solutions" and that they "use the smallest and least visually intrusive antennas and

1 components that meet the requirements of the facility.” San Diego Mun. Code § 141.0405(f) as
 2 in effect prior to April 11, 2007.

3 **28.** Under § 126.0305 of the City’s Land Development Code, the following are the
 4 findings required for a CUP: (a) The proposed development will not adversely affect the
 5 applicable land use plan; (b) The proposed development will not be detrimental to the public
 6 health, safety, and welfare; (c) The proposed development will comply to the maximum extent
 7 feasible with the regulations of the Land Development Code; and (d) The proposed use is
 8 appropriate at the proposed location. San Diego Mun. Code § 126.0305.

9 **29.** The purpose of a PDP is articulated in § 143.0401 of the Land Development Code:
 10 “The purpose of these regulations is to provide flexibility in the application of development
 11 regulations for projects where strict application of the base zone development regulations would
 12 restrict design options and result in a less desirable project.” San Diego Mun. Code § 143.0401.

13 **30.** ATC has consistently pursued PDPs throughout the CUP review process, both in
 14 support of retention of the existing height and to permit any other nonconformance with the
 15 development regulations of the applicable zone necessary for the continued operation of the
 16 critical infrastructure represented by the Denied Facilities.

17 **31.** The findings required for a PDP under § 126.0604 of the Land Development Code
 18 are as follows: (a) The proposed development will not adversely affect the applicable land use
 19 plan; (b) The proposed development will not be detrimental to the public health safety and
 20 welfare; (c) The proposed development will comply with the applicable regulations of the Land
 21 Development Code; (d) The proposed development, when considered as a whole, will be
 22 beneficial to the community; and (e) Any proposed deviations pursuant to § 126.0602(b)(2) are
 23 appropriate for this location and will result in a more desirable project than would be achieved if
 24 designed in strict conformance with the development regulations of the applicable zone. San
 25 Diego Mun. Code § 126.0604(a).

26 **III. THE FEDERAL COMMUNICATIONS ACT**

27 **32.** Congress adopted the Communications Act of 1934, 47 U.S.C. §§ 151 *et seq.*, and
 28 thereby created the Federal Communications Commission for, among other purposes, “. . .

1 regulating interstate and foreign commerce in communication by wire and radio so as to make
2 available, so far as possible, to all the people of the United States, without discrimination . . . , a
3 rapid, efficient, nationwide, and world-wide wire and radio communication service with adequate
4 facilities at reasonable charges, for the purpose of national defense; for the purpose of promoting
5 safety of life and property through the use of wire and radio communication, and for the purpose
6 of securing a more effective execution of this policy by centralizing authority heretofore granted
7 by law to several agencies”

8 **33.** In 1996, Congress amended the Communications Act of 1934 by enacting the
9 Telecommunications Act of 1996 (“TCA”). The TCA is expansive legislation intended to
10 increase and improve competition in the telecommunications industry. An important purpose of
11 the TCA, as described by the Conference Report to the Senate Bill, is to “accelerate rapidly
12 private sector deployment of advanced telecommunications and information technologies and
13 services to all Americans by opening all telecommunications markets to competition” H.R.
14 Conf. Rep. No. 458, 104th Cong., 2d Sess. 1 (1996).

15 **34.** Section 332(c)(7)(B)(i)(I) of the Communications Act states: “The regulation of the
16 placement, construction, and modification of personal wireless service facilities by any State or
17 local government or instrumentality thereof--shall not unreasonably discriminate among
18 providers of functionally equivalent services.”

19 **35.** Section 332(c)(7)(B)(i)(II) further provides that State or local government
20 regulation of personal wireless service facilities “shall not prohibit or have the effect of
21 prohibiting the provision of personal wireless services.”

22 **36.** Section 332(c)(7)(B)(ii) provides that a State or local government shall “act on any
23 request to place, construct, or modify personal wireless service facilities within a reasonable
24 period of time after the request is duly filed”

25 **37.** Section 332(c)(7)(B)(iii) states that “any decision by a State or local government or
26 instrumentality thereof to deny a request to place, construct, or modify personal wireless service
27 facilities shall be in writing and supported by substantial evidence contained in a written record.”

28 **IV. THE PERMIT STREAMLINING ACT (CAL. GOV. CODE §§ 65920 ET SEQ.)**

1 38. Cal. Gov. Code § 65940(a) requires each state agency and each local agency to
2 "compile one or more lists that shall specify in detail the information that will be required from
3 any applicant for a development project." The section also requires the information to "be made
4 available to all applicants for development projects and to any person who requests the
5 information."

6 39. Cal. Gov. Code § 65941(a) mandates: "The information compiled pursuant to
7 Section 65940 shall also indicate the criteria which the agency will apply in order to determine
8 the completeness of any application submitted to it for a development project." All of this
9 information is required, under Gov. Code § 65942, to be revised as necessary so as to "be current
10 and accurate at all times." That section further provides: "Any revisions shall apply
11 prospectively only and shall not be a basis for determining that an application is not complete . . .
12 if the application was received before the revision is effective" with two narrow exceptions.

13 40. Although an agency is permitted to defer requiring some of the information needed
14 until after the completion of the application, Cal. Gov. Code § 65944(a) prohibits an agency
15 which has accepted an application as complete from subsequently requesting information not
16 specified in the list. "Prior to accepting an application, each public agency shall inform the
17 applicant of any information included in the list prepared pursuant to Section 65940 which will
18 subsequently be required from the applicant in order to complete final action on the application."
19 Gov. Code § 65944(b).

20 41. Cal. Gov. Code § 65943 sets forth the time limits for determining the completeness
21 of an application. As to the initial submission of an application, subsection (a) of that section
22 requires: "Not later than 30 calendar days after any public agency has received an application for
23 a development project, the agency shall determine in writing whether the application is complete
24 and shall immediately transmit the determination to the applicant for the development project. If
25 the written determination is not made within 30 days after receipt of the application, and the
26 application includes a statement that it is an application for a development permit, the application
27 shall be deemed complete for purposes of this chapter."

28 42. Cal. Gov. Code § 65943(a) also requires the government agency to specify in detail

1 the shortcomings of any application deemed incomplete:

2 "If the application is determined not to be complete, the agency's determination
3 shall specify those parts of the application which are incomplete and shall indicate
4 the manner in which they can be made complete, including a list and thorough
5 description of the specific information needed to complete the application."

6 **43.** Cal. Gov. Code §§ 65950-65952 sets forth mandatory time limits for approval or
7 disapproval of a development project. Gov. Code § 65956(b) provides that in the event of a
8 failure by an agency to meet the required deadlines for approval or disapproval, "the failure to act
9 shall be deemed approval of the permit application for the development project. However, the
10 permit shall be deemed approved only if the public notice required by law has occurred." The
11 statute provides specific means for the applicant to provide the required public notice if the lead
12 agency fails to do so. Gov. Code § 65953 specifically *requires* agencies to act more quickly to
13 the extent possible:

14 "All time limits specified in this article are maximum time limits for approving
15 or disapproving development projects. All public agencies shall, if possible,
16 approve or disapprove development projects in shorter periods of time."

17 The City has failed to comply with the Permit Streamlining Act's timing requirements both as to
18 its limits on information that may be required and as to the time limits for action on ATC's
19 requested CUPs and other permits.

SUMMARY OF HARM AND FACTS REQUIRING
DECLARATORY AND INJUNCTIVE RELIEF

44. The foregoing allegations demonstrate that an actual controversy now exists between ATC and the City, due to the City's denial of ATC's CUPs. The City's denial violates and is preempted by federal and state law and is, therefore, void and invalid. An actual controversy also now exists as to whether ATC is entitled to an order compelling the City to issue appropriate permits for the continued operation of ATC's Denied Facilities forthwith. ATC's rights, status and other legal relations have been immediately and adversely affected by the City's actions.

45. As a result of the City's actions complained of herein, ATC has been, and will continue to be, absent the relief requested herein, damaged and irreparably harmed. The harm caused by the City's unlawful denial of ATC's CUPs includes, but is not limited to, the following: (a) ATC and the carrier utilizing the Denied Facilities, Verizon Wireless (hereinafter "Tenant") will be required to remove and/or replace their equipment currently in operation and currently providing wireless communication services; (b) ATC and its Tenant will be required to reconfigure wireless communication networks in order to accommodate the loss and/or modifications of the Denied Facilities; (c) ATC has expended substantial amounts of time and resources negotiating with the City over the renewal process applicable to its Denied Facilities; (d) ATC is being deprived of the full utilization of ATC's existing licenses and business investments, as well as lost revenue for services; (e) ATC will lose customers if it is forced to remove the Denied Facilities as a result of the denial of the Mt. Ada and 30th Place CUPs; and (f) ATC is being and will continue to be deprived of goodwill and business reputation, both present and future, if it is forced to remove the Denied Facilities.

COUNT I

Violation of Section 332(c)(7)(B)(i)(I) of the Communications Act

(47 U.S.C. § 332(c)(7)(B)(i)(I))

46. ATC incorporates herein by reference the allegations of paragraphs 1 through 45 above.

48. On April 14, 2008, the City Council denied ATC's request for the 30th Place CUP and its appeal of the Planning Commission's denial of its Mt. Ada CUP on the grounds that the Denied Facilities do not comply with the provisions of its Land Development Code. The City, acting in its proprietary capacity, leases space on city-owned telecommunication towers for commercial purposes in and around the City in direct competition with ATC. The City exempts its towers from its Wireless Regulations. Some of these towers are monopoles of the same general design as ATC's Denied Facilities and are not distinguishable from ATC's Denied Facilities in terms of the criteria which form the basis of the City's denial of ATC's CUPs. The City has proffered no reasonable basis for differentiating these city facilities from ATC's Facilities. The City's denials of ATC's CUPs unreasonably discriminate against ATC, which provides functionally equivalent services to those provided by the City in making space available for lease on its Facilities for placement of commercial wireless antennas.

COUNT II

Violation of Section 332(c)(7)(B)(i)(II) of the Communications Act

(47 U.S.C. § 332(c)(7)(B)(i)(II))

50. ATC incorporates herein by reference the allegations of paragraphs 1 through 49 above.

51. 47 U.S.C. § 332(c)(7)(B)(i)(II) provides that any regulation of personal wireless service facilities shall not “prohibit or have the effect of prohibiting the provision of personal wireless service.”

52. The Denied Facilities, as well as others, are existing facilities that comprise the backbone of ATC's carrier customers' networks in the City of San Diego. Removal of the Denied Facilities will have a substantial impact on its Tenant's network, resulting in significant

1 gaps in service where no such gaps currently exist. The Denied Facilities are existing facilities
2 that have already been determined to comply with City requirements. No changes have occurred
3 to the areas in which the Denied Facilities are located that warrant replacement or relocation.

4 53. The denial of ATC's request for CUPs to continue operation of the Denied
5 Facilities, if upheld, will result in the creation of significant gaps in services for its Tenant, as
6 shown by uncontroverted evidence in the record. Furthermore, the manner in which the existing
7 Facilities currently fill those significant gaps is the least intrusive on the values addressed by the
8 applicable provisions of the City's Land Development Code. In addition, the least intrusive
9 alternative test requires a special application in the context of this case. Where facilities have
10 already been deployed in the formation of a complex wireless network, forced removal of these
11 facilities solely on subjective and arbitrary aesthetic grounds, which removal would result in new
12 gaps in services and the need for extensive network reconfiguration with new land use impacts
13 and at best uncertain permitting prospects, should constitute effective prohibition of services
14 under § 332(c)(7)(B)(i)(II), and the City's denial should be set aside on those grounds.

15 54. Accordingly, the City's denials of ATC's CUPs should be found to be in violation
16 of 47 U.S.C. § 332(c)(7)(B)(i)(II) and set aside, and the requested CUPs should be ordered to be
17 granted.

18 COUNT III

19 **Violation of Section 332(c)(7)(B)(ii) of the Communications Act**

20 **(47 U.S.C. § 332(c)(7)(B)(ii))**

21 55. ATC incorporates herein by reference the allegations of paragraphs 1 through 54
22 above.

23 56. 47 U.S.C. § 332(c)(7)(B)(ii) requires that a local government "act on any request
24 for authorization to place, construct, or modify personal wireless service facilities within a
25 reasonable period of time after the request is duly filed with such government or instrumentality,
26 taking into account the nature and scope of such request."

27 57. It has been more than two years since ATC applied for a PDP for the 30th Place
28 Facility. Despite numerous hearings and decisions by both the Planning Commission and the

1 City Council on ATC's application for a CUP, the City has not made any decision on ATC's
2 request for a PDP. This delay violates the provisions of the PSA and is unreasonable.

3 58. Accordingly the City's failure to approve ATC's PDP should be found to be in
4 violation of 47 U.S.C. § 332(c)(7)(B)(ii), and the Court should order the City to issue the
5 requested PDP.

6 COUNT IV

7 **Violation of Section 332(c)(7)(B)(iii) of the Communications Act**

8 **(47 U.S.C. § 332(c)(7)(B)(iii))**

9 59. ATC incorporates herein by reference the allegations of paragraphs 1 through 58
10 above.

11 60. 47 U.S.C. § 332(c)(7)(B)(iii) requires that any decision by a State or local
12 government to deny a request to place, construct, or modify personal wireless service facilities
13 "shall be in writing and supported by substantial evidence contained in a written record."

14 61. On April 14, 2008, the City Council finally denied ATC's requests for the 30th Place
15 and Mt. Ada CUPs. However, the City Council has failed to adopt a written decision or written
16 findings, and its decisions were based on conclusory findings which were not supported by
17 substantial evidence in the record. The decisions of the Planning Commission and City Council
18 were also tainted by staff's insistence on requirements related to the CUP application that were
19 unlawful in light of the City's failure to comply with the Permit Streamlining Act. Furthermore,
20 the Planning Commission and the City Council, in making their decisions, failed to follow the
21 applicable requirements of the City's Land Development Code. While the City Council has not
22 issued written findings in support of its decisions, it is clear that they were based on requirements
23 such as "integration" and "concealment" that are applicable to minor telecommunication
24 facilities. However, the Mt. Ada and 30th Place Facilities were processed by the City not as a
25 "minor telecommunication facilities," but rather as a "major telecommunication facilities."

26 62. In addition, both the Planning Commission and the City Council failed to consider
27 the qualification found in the required findings for issuance of a CUP that the development need
28 only comply with the regulations of the Land Development Code "to the maximum extent

feasible." Land Development Code § 126.0305(c). The record contains no evidence of any analysis (other than speculation) by the Planning Commission or the City's staff of whether it was "feasible" to comply with the requirements of the Land Development Code to any greater extent than the facility already did, and the City ignored expert testimony that it was not feasible to do so. It also failed to even consider the applicability of the Land Development Code's provisions regarding PDPs to the 30th Place Facility, which, as indicated above, provide flexibility to avoid "strict application of the base zone development regulations."

63. Accordingly, the City's actions should be found in violation of 47 U.S.C. § 332 (c)(7)(B)(iii) and set aside, and the requested permits should be ordered to be granted.

COUNT V

Mandamus

(Inherent Authority or Cal. Code Civ. Pro. § 1094.5)

64. ATC incorporates herein by reference the allegations of paragraphs 1 through 63 above.

65. ATC brings the Count for Mandamus pursuant to the Court's inherent authority under the federal Communications Act, or, in the alternative, Cal. Code of Civ. Pro. § 1094.5. In either event, this court has jurisdiction to hear this claim under 28 U.S.C. §§ 1331 and 1332, and under the supplemental jurisdiction conferred by 28 U.S.C. § 1367(a).

66. The City, in denying ATC's CUPs, has violated federal and state law as set forth in this Complaint. The City therefore is under a mandatory duty to issue CUPs to permit ATC to continue to maintain and operate the Denied Facilities.

67. ATC is beneficially interested in the issuance of a writ of mandamus. As the applicant for the CUP at issue, ATC's rights and interests have been and will be adversely affected, and the full use and enjoyment of its property will be denied, unless the City is compelled by the Court to issue CUPs to permit ATC to continue to maintain and operate the Denied Facilities. Furthermore, the removal of the Denied Facilities will permit the City to eliminate competition for tenants of its antenna space and will enable the City to charge noncompetitive prices.

COUNT VI

73. The allegations set forth above demonstrate that the City has violated ATC's equal protection rights by imposing requirements upon and taking or failing to take action with respect to ATC's Facilities which it has not imposed on or taken or failed to take with respect to the City's own telecommunications towers, even when such towers are being utilized in a proprietary, nongovernmental capacity. There is no rational basis for the City's distinction between the City's towers and activities and those of ATC. The City's imposition of special

1 requirements and its denial of permits necessary for ATC to continue to operate the Denied
 2 Facilities constitute a denial of ATC's right to equal protection of the laws in violation of the
 3 Fourteenth Amendment of the United States Constitution.

4 74. Accordingly, the City's action should be declared to be a denial of ATC's rights to
 5 equal protection, and should be set aside and enjoined by the Court on that basis. Further, the
 6 Court should issue an order commanding the City to grant appropriate permits so that ATC may
 7 continue to maintain and operate the Denied Facilities.

8 COUNT VII

9 Deemed Approval of Permits under 10 the California Permit Streamlining Act 11 (U.S. Const. amend. XIV)

12 75. ATC incorporates herein by reference the allegations of paragraphs 1 through 74
 13 above.

14 76. Under the PSA, specifically Gov. Code § 65950(a)(4), the City was required to
 15 approve or disapprove ATC's applications within 60 days from the date that the City determined
 16 each project was exempt from the California Environmental Quality Act. The City failed to do
 17 so.

18 77. Gov. Code § 65956(b) provides that in the event of a failure by an agency such as
 19 the City to meet the required deadlines for approval or disapproval, "the failure to act shall be
 20 deemed approval of the permit application for the development project. However, the permit
 21 shall be deemed approved only if the public notice required by law has occurred." All of the
 22 required public notices were given. Exhibit 10 contains copies of those notices.

23 **PRAYER FOR RELIEF**

24 WHEREFORE, Plaintiff respectfully prays for the following relief:

25 1. Under Count I, that the Court issue an Order declaring that the City's denial of
 26 ATC's CUPs constitutes unreasonable discrimination under 47 U.S.C. § 332(c)(7)(B)(i)(I) and,
 27 therefore, is void, invalid, and unenforceable;

28 2. Under Count II, that the Court issue an Order declaring that the City's denial of

1 ATC's CUPs constitutes actual or effective prohibition under 47 U.S.C. § 332(c)(7)(B)(i)(II) and,
2 therefore, is void, invalid, and unenforceable;

3 3. Under Count III, that the Court issue an Order declaring the City has failed to act on
4 ATC's request for a PDP for its 30th Place Facility within a reasonable period of time in violation
5 of 47 U.S.C. § 332(c)(7)(B)(ii);

6 4. Under Count IV, that the Court issue an Order declaring that the City's denial of
7 ATC's CUP is not supported by substantial evidence in a written record as required by 47 U.S.C.
8 § 332(c)(7)(B)(iii) and, therefore, is void, invalid, and unenforceable;

9 5. Under Count V, that the Court issue a writ of mandamus pursuant to its inherent
10 authority under the Communications Act, or in the alternative, under Cal. Code. Civ. Pro.
11 § 1094.5 ordering the City to grant ATC its requested CUPs and/or such other permit or permits
12 as may be necessary for the continued maintenance and operation of the Mt. Ada Facility and the
13 30th Place Facility;

14 6. Under Count VI, that the Court issue an Order declaring that the City's differential
15 treatment of ATC's towers and those of the City utilized by it in competition with ATC is
16 violative of ATC's rights to equal protection under the Fourteenth Amendment to the U.S.
17 Constitution;

18 7. Under Count VII, that the Court issue an Order declaring that the CUPs sought by
19 ATC for the Denied Facilities are deemed granted under the PSA;

20 8. For costs of suit;

21 9. For damages in an amount to be established by the evidence;

22 10. For attorneys' fees (including expert fees) in accordance with the provisions of 42
23 U.S.C. § 1988 and as may be otherwise provided by law for the violation of ATC's rights,
24 privileges and immunities; and

25 11. For such other and further relief as the court may deem just and proper.

PLANNING COMMISSION RESOLUTION NO. 5280

APPROVING CONDITIONAL USE PERMIT NO. 84-0469

WHEREAS, PAC TEL MOBILE ACCESS, a Delaware corporation, Owner/ Permittee, filed an application for a conditional use permit to construct and maintain a telephone transmitting and receiving facility consisting of an equipment building and an antenna tower located on the south side of State Highway 94, at 30th Place, described as Lot 2, Hilltop, Map 5357, and Lots 15 to 18, Block 97, E. W. Morse Subdivision, Map 547, in the Southeast San Diego community, in the CC and R-3000 zones; and

WHEREAS, on October 25, 1984, the Planning Commission of The City of San Diego considered Conditional Use Permit No. 84-0469, pursuant to Section 101.0506 of the Municipal Code of The City of San Diego, received documentary, written and oral testimony for consideration and heard from all interested parties present at the public hearing; NOW, THEREFORE,

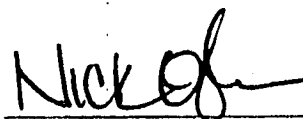

BE IT RESOLVED by the Planning Commission of The City of San Diego that the following findings are hereby adopted as the findings of the Planning Commission:

1. The proposed project will not adversely affect the neighborhood, the General Plan and the community plans and will not be detrimental to the health, safety and general welfare of persons residing or working in the area.
2. The proposed use would comply with all the relevant regulations of the Municipal Code. Section 101.0507 of the Municipal Code of San Diego, Paragraph A.7, grants the Planning Commission authority to approve the proposed facilities with a conditional use permit, subject to appropriate conditions of approval. The Commission believes that appropriate conditions are included that would sufficiently reduce the negative visual impact of the proposed project.

BE IT FURTHER RESOLVED that said findings are supported by the minutes, maps and exhibits, all of which are herein incorporated by reference.

BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Planning Commission, the application for Conditional Use Permit No. 84-0469 is hereby APPROVED, and the Planning Commission hereby RECOMMENDS to the City Council that it be granted in the form and with the terms and conditions set forth in the draft permit attached hereto.

CONDITIONAL USE PERMIT
NO. 84-0469
CITY COUNCIL
(AS RECOMMENDED BY PLANNING COMMISSION)

This Conditional Use Permit is granted by the City Council of The City of San Diego to PACTEL MOBILE ACCESS, a Delaware Corporation, Owner/Permittee, under the conditions in Section 101.0506 of the Municipal Code of The City of San Diego.

1. Permission is granted to Owner/Permittee to construct and operate a communication facility consisting of an equipment building and antenna tower located on the south side of State Highway 94 at 30th Place, more particularly described as Lot 2, Hilltop, Map 5357 and Lots 15 to 18, Block 97, E.W. Morse Subdivision, Map 547, in the CC and R-3000 Zones.

2. The facility shall consist of the following:

- a. A 26-foot by 22-foot equipment building and a 145-foot-high antenna tower for frequency reception and transmission. The color of the pole shall be cool medium-light grey;
- b. Off-street parking for service personnel; and
- c. Accessory uses as may be determined incidental and approved by the Planning Director.

3. Not less than two off-street parking spaces shall be maintained on the property in the approximate location shown on Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Parking spaces shall be consistent with Division 8 of the Municipal Code and shall be permanently maintained and not converted for any other use. Parking spaces and aisles shall conform to Planning Department standards. Parking areas shall be marked.

4. No permit for construction of the expanded facility shall be granted nor shall any activity authorized by this permit be conducted on the premises until:

- a. The Permittee signs and returns the amended permit to the Planning Department; and
- b. The Conditional Use Permit is recorded in the office of the County Recorder.

5. Before issuance of any building permits, complete building plans shall be submitted to the Planning Director for approval. Plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. No change, modifications or alterations shall be made unless appropriate applications for amendment of this permit shall have been granted.

6. Before issuance of any building permits, a complete landscape plan, including a permanent irrigation system, shall be submitted to the Planning Director for approval. The plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Approved planting shall be installed before issuance of any occupancy permit on any building. Such planting shall not be modified or altered unless this permit has been amended. Specific plant species shall be identified on final landscaping plans and shall be subject to Planning Director approval.

7. All outdoor lighting shall be so shaded and adjusted that the light is directed to fall only on the same premises as light sources are located and not reflect onto adjacent properties.

8. This Conditional Use Permit must be used within 36 months after the date of City approval or the permit shall be void. An Extension of Time may be granted as set forth in Section 101.0506 and 101.0507 of the Municipal Code. Such extension of time shall be subject to all regulations in force at the time of the extension.

9. After establishment of the amended project, the property shall not be used for any other purposes unless:

- a. Authorized by the City Council; or
- b. The proposed use meets every requirement of the zone existing for the property at the time of conversion; or
- c. The permit has been revoked by the City.

10. This Conditional Use Permit may be revoked by the City if there is a material breach or default in any of the conditions of this permit.

11. This Conditional Use Permit is a covenant running with the lands and shall be binding upon the Permittee and any successor or successors, and the interests of any successor shall be subject to each and every condition set out.

12. This permit shall expire five years from the date of approval. If an extension is requested, the operation and conditions shall be reviewed at public hearings by the Planning Commission and City Council.

13. In the event that additional cellular mobile phone communication systems are needed in the future that would require a transmitting tower or towers in the vicinity of this approved facility, the permittee shall allow the installation of antennas on the tower authorized by this permit and the installation of necessary support equipment on the premises, if such additional antennas and support equipment are approved by the City of San Diego following a noticed public hearing on the matter.

14. The existing billboards on the site are to be removed prior to the mobile phone facilities becoming operational on the property if legally obtainable. However, in no event shall renewal of any contract/agreement for retention of the billboards be undertaken by the permittee and/or land owner or authorization for continued use beyond the current contract/agreement be permitted on the site.

ADOPTED BY THE COUNCIL OF THE CITY OF SAN DIEGO (as recommended by the PLANNING COMMISSION) ON _____ .

CONDITIONAL USE PERMIT
NO. 84-0469
CITY COUNCIL

This Conditional Use Permit is granted by the City Council of The City of San Diego to PACTEL MOBILE ACCESS, a Delaware Corporation, Owner/Permittee, under the conditions in Section 101.0507 of the Municipal Code of The City of San Diego.

1. Permission is granted to Owner/Permittee to construct and operate a communication facility consisting of an equipment building and antenna tower located on the south side of State Highway 94 at 30th Place, more particularly described as Lot 2, Hilltop, Map 5357 and Lots 15 to 18, Block 97, E.W. Morse Subdivision, Map 547, in the CC and R-3000 Zones.
2. The facility shall consist of the following:
 - a. A 26-foot by 22-foot equipment building and a 145-foot-high antenna tower for frequency reception and transmission. The color of the pole shall be cool medium-light grey;
 - b. Off-street parking for service personnel; and
 - c. Accessory uses as may be determined incidental and approved by the Planning Director.
3. Not less than two off-street parking spaces shall be maintained on the property in the approximate location shown on Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Parking spaces shall be consistent with Division 8 of the Municipal Code and shall be permanently maintained and not converted for any other use. Parking spaces and aisles shall conform to Planning Department standards. Parking areas shall be marked.
4. No permit for construction of the expanded facility shall be granted nor shall any activity authorized by this permit be conducted on the premises until:
 - a. The Permittee signs and returns the amended permit to the Planning Department; and
 - b. The Conditional Use Permit is recorded in the office of the County Recorder.

5. Before issuance of any building permits, complete building plans shall be submitted to the Planning Director for approval. Plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. No change, modifications or alterations shall be made unless appropriate applications for amendment of this permit shall have been granted.

6. Before issuance of any building permits, a complete landscape plan, including a permanent irrigation system, shall be submitted to the Planning Director for approval. The plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Approved planting shall be installed before issuance of any occupancy permit on any building. Such planting shall not be modified or altered unless this permit has been amended. Specific plant species shall be identified on final landscaping plans and shall be subject to Planning Director approval.

7. All outdoor lighting shall be so shaded and adjusted that the light is directed to fall only on the same premises as light sources are located and not reflect onto adjacent properties.

8. This Conditional Use Permit must be used within 36 months after the date of City approval or the permit shall be void. An Extension of Time may be granted as set forth in Section 101.0506 and 101.0507 of the Municipal Code. Such extension of time shall be subject to all regulations in force at the time of the extension.

9. After establishment of the amended project, the property shall not be used for any other purposes unless:

- a. Authorized by the City Council; or
- b. The proposed use meets every requirement of the zone existing for the property at the time of conversion; or
- c. The permit has been revoked by the City.

10. This Conditional Use Permit may be revoked by the City if there is a material breach or default in any of the conditions of this permit.

11. This Conditional Use Permit is a covenant running with the lands and shall be binding upon the Permittee and any successor or successors, and the interests of any successor shall be subject to each and every condition set out.

1686

12. This permit shall expire 20 years from the date of approval. If an extension is requested, the operation and conditions shall be reviewed at public hearings by the Planning Commission and City Council.

13. In the event that additional cellular mobile phone communication systems are needed in the future that would require a transmitting tower or towers in the vicinity of this approved facility, the permittee shall allow the installation of antennas on the tower authorized by this permit and the installation of necessary support equipment on the premises if the applicant for such additional antennae and support equipment shows that the operation thereof would not interfere with the operation of the permittee's antennae and support equipment and the co-location of such antennae and support equipment are otherwise technically feasible and compatible, and such additional antennae and support equipment are approved by The City of San Diego following a noticed public hearing on the matter.

14. The existing billboards shall be removed no later than October 1986 from the site.

ADOPTED BY THE COUNCIL OF THE CITY OF SAN DIEGO ON NOVEMBER 20, 1984.

(R-85-975)

RESOLUTION NUMBER R- 262004

ADOPTED ON NOV 20 1984

WHEREAS, PACTEL MOBILE ACCESS, INC., a Delaware corporation, "Owner/Permittee," filed an application for a Conditional Use Permit, CUP-84-0469, to construct and operate a communication facility consisting of an equipment building and antenna tower located on the south side of State Highway 94 at 30th Place more particularly described as Lot 2, Hilltop Subdivision, Map No. 5357 and Lots 15 to 18, Block 97, E. W. Morse Subdivision, Map No. 547, in the CC and R-3000 Zones of the Southeast San Diego Community Plan area; and

WHEREAS, on October 25, 1984, the Planning Commission of The City of San Diego made its findings of fact, approved Conditional Use Permit No. 84-0469 and filed said decision in the office of the City Clerk; and

WHEREAS, said Conditional Use Permit No. 84-0469, pursuant to Section 101.0507 of the San Diego Municipal Code, was set for public hearing on November 20, 1984, testimony having been heard, evidence having been submitted, and the City Council having fully considered the matter and being fully advised concerning the same; NOW, THEREFORE,

BE IT RESOLVED, by the Council of The City of San Diego as follows:

All of the following facts exist with respect to Conditional Use Permit No. 84-0469:

1690

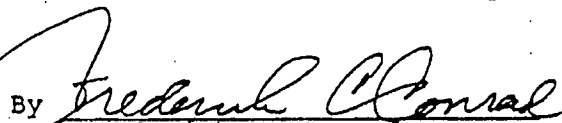

1. The proposed use will not adversely affect the neighborhood, the General Plan or the community plan and will not be detrimental to the health, safety and general welfare of persons residing or working in the area.

2. The proposed use will comply with all the relevant regulations in the Municipal Code. Section 101.0507, paragraph A.7., of the San Diego Municipal Code grants this Council, following Planning Commission recommendation, authority to approve radio or television transmission stations and broadcasting studios in any zone by a Conditional Use Permit. This Council believes that appropriate conditions are included that would sufficiently reduce the negative visual impact of the proposed project.

The above findings are supported by the minutes, maps and exhibits, all of which are herein incorporated by reference.

BE IT FURTHER RESOLVED, that this Council does hereby grant to PACTEL MOBILE ACCESS, INC., a Delaware corporation, Owner/Permittee, Conditional Use Permit No. 84-0469 in the form and with the terms and conditions as set forth in the permit attached hereto and made a part hereof.

CONDITIONAL USE PERMIT

NO. 83-0629

CITY COUNCIL

This Conditional Use Permit is granted by the City Council of The City of San Diego to PACTEL MOBILE ACCESS, a Delaware Corporation, Owner/Permittee, under the conditions in Section 101.0507 of the Municipal Code of The City of San Diego.

1. Permission is granted to Owner/Permittee to construct and operate a communication facility consisting of an equipment building and antenna tower located on the north side of Mt. Ada Road between Mt. Rias Place and Mt. Albertine Avenue, more particularly described a Portion of Parcel B, Parcel Map 227, in the CA Zone.

2. The facility shall consist of the following:

- a. A 26-foot by 22-foot equipment building and a 145-foot-high antenna tower for frequency reception and transmission. The color of the pole shall be cool medium-light grey;
- b. Off-street parking for service personnel; and
- c. Accessory uses as may be determined incidental and approved by the Planning Director.

3. Not less than two off-street parking spaces shall be maintained on the property in the approximate location shown on Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Parking spaces shall be consistent with Division 8 of the Municipal Code and shall be permanently maintained and not converted for any other use. Parking spaces and aisles shall conform to Planning Department standards. Parking areas shall be marked:

4. No permit for construction of the expanded facility shall be granted nor shall any activity authorized by this permit be conducted on the premises until:

- a. The Permittee signs and returns the amended permit to the Planning Department; and
- b. The Conditional Use Permit is recorded in the office of the County Recorder.

5. Before issuance of any building permits, complete building plans shall be submitted to the Planning Director for approval. Plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. No change, modifications or alterations shall be made unless appropriate applications for amendment of this permit shall have been granted.

6. Before issuance of any building permits, a complete landscape plan, including a permanent irrigation system, shall be submitted to the Planning Director for approval. The plans shall be in substantial conformity to Exhibit "A," dated October 25, 1984, on file in the office of the Planning Department. Approved planting shall be installed before issuance of any occupancy permit on any building. Such planting shall not be modified or altered unless this permit has been amended. Specific plant species shall be identified on final landscaping plans and shall be subject to Planning Director approval.

7. All outdoor lighting shall be so shaded and adjusted that the light is directed to fall only on the same premises as light sources are located and not reflect onto adjacent properties.

8. This Conditional Use Permit must be used within 36 months after the date of City approval or the permit shall be void. An Extension of Time may be granted as set forth in Section 101.0506 and 101.0507 of the Municipal Code. Such extension of time shall be subject to all regulations in force at the time of the extension.

9. After establishment of the amended project, the property shall not be used for any other purposes unless:

- a. Authorized by the City Council; or
- b. The proposed use meets every requirement of the zone existing for the property at the time of conversion; or
- c. The permit has been revoked by the City.

10 This Conditional Use Permit may be revoked by the City if there is a material breach or default in any of the conditions of this permit.

11 This Conditional Use Permit is a covenant running with the lands and shall be binding upon the Permittee and any successor or successors, and the interests of any successor shall be subject to each and every condition set out.

12. This permit shall expire 20 years from the date of approval. If an extension is requested, the operation and conditions shall be reviewed at public hearings by the Planning Commission and City Council.

13. In the event that additional cellular mobile phone communication systems are needed in the future that would require a transmitting tower or towers in the vicinity of this approved facility, the permittee shall allow the installation of antennas on the tower authorized by this permit and the installation of necessary support equipment on the premises if the applicant for such additional antennae and support equipment shows that the operation thereof would not interfere with the operation of the permittee's antennae and support equipment and the co-location of such antennae and support equipment are otherwise technically feasible and compatible, and such additional antennae and support equipment are approved by The City of San Diego following a noticed public hearing on the matter.

ADOPTED BY THE COUNCIL OF THE CITY OF SAN DIEGO THIS 20TH DAY OF NOVEMBER, 1984.

(R-85-974)

RESOLUTION NUMBER R- 262003

ADOPTED ON NOV 20 1984

WHEREAS, PACTEL MOBILE ACCESS, INC., a Delaware corporation, "Owner/Permittee," filed an application for a Conditional Use Permit, CUP-83-0629, to construct and operate a communication facility consisting of an equipment building and antenna tower located on the north side of Mt. Ada Road, between Mt. Rias Place and Mt. Albertine Avenue, more particularly described as a portion of Parcel B, Parcel Map No. 227, in the CA Zone of the Clairemont Mesa Community Plan area; and

WHEREAS, on October 25, 1984, the Planning Commission of The City of San Diego made its findings of fact, approved Conditional Use Permit No. 83-0629 and filed said decision in the office of the City Clerk; and

WHEREAS, said Conditional Use Permit No. 83-0629, pursuant to Section 101.0507 of the San Diego Municipal Code, was set for public hearing on November 20, 1984, testimony having been heard, evidence having been submitted, and the City Council having fully considered the matter and being fully advised concerning the same; NOW, THEREFORE,

BE IT RESOLVED, by the Council of The City of San Diego as follows:

All of the following facts exist with respect to Conditional Use Permit No. 83-0696:

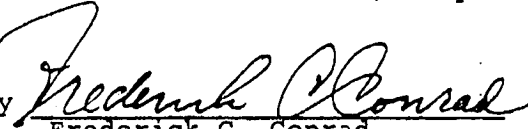

1. The proposed use will not adversely affect the neighborhood, the General Plan or the community plan and will not be detrimental to the health, safety and general welfare of persons residing or working in the area.

2. The proposed use will comply with all the relevant regulations in the Municipal Code. Section 101.0507, paragraph A.7., of the San Diego Municipal Code grants this Council, following Planning Commission recommendation, authority to approve radio or television transmission stations and broadcasting studios in any zone by a Conditional Use Permit. This Council believes that appropriate conditions are included that would sufficiently reduce the negative visual impact of the proposed project.

The above findings are supported by the minutes, maps and exhibits, all of which are herein incorporated by reference.

BE IT FURTHER RESOLVED, that this Council does hereby grant to PACTEL MOBILE ACCESS, INC., a Delaware corporation, Owner/Permittee, Conditional Use Permit No. 83-0629 in the form and with the terms and conditions as set forth in the permit attached hereto and made a part hereof.

Important Instructions to Applicant	
California State law requires every permit applicant to provide specific information and certain declarations regarding the proposed work. The following instructions describe who may sign the required declarations.	
Licensed Contractor This statement may be signed by the contractor or a corporate officer of a construction company including President, Vice President, Secretary, Treasurer, Trustee, Chairman of the Board or Responsible Managing Employee (RME). An agent for the contractor may sign only when a letter of authorization from the contractor authorizing the agent to sign is presented at permit issuance. The person signing must list his/her title.	Owner-Builder Declaration This statement may be signed by the owner, lessee, tenant, architect, engineer, licensed pest control operator, or an authorized agent of any of these. In every case, a separate Owner-Builder Verification form (DS-3042) must also be signed by the owner.
Workers' Compensation Declaration This statement may be signed by the contractor, owner, tenant, lessee or an authorized agent of one of these. A valid Certificate of Workers' Compensation Insurance must be presented at permit issuance. The certificate: a. Must show the name of the insured. b. Must list the policy number, effective date, and expiration date of the insurance policy. If item 6.c. is checked, only the contractor or owner may sign this area, NOT AN AGENT. This section is signed only when the owner or contractor will have no employees on the job. If, after signing the exemption from the Workers' Compensation provisions of the Labor Code, the contractor or owner-builder should

American Tower Corporation requests that the City of San Diego either extend the original Conditional Use Permit, or in the alternative, approve a new Conditional Use Permit and Planned Development Permit, consistent with the original Conditions of Approval under Conditional Use Permit Number 84-0469 (as amended) (*please refer to attached, original CUP*) to continue to operate, and maintain a wireless communication facility at 700 30th Place. The existing communications facility consists of a 130 foot monopole with seven (7) microwave antennas, one (1) 8-foot omni-directional cellular antenna, and eighteen (18) four-foot directional cellular antennas. A 484-square foot communications equipment building is located adjacent to the monopole support structure. Both structures are surrounded by a six-foot-high chain link security fence. American Tower is requesting the extension and/or the Planned Development Permit in order that Lessee, Verizon Wireless can continue to provide uninterrupted and seamless wireless service to their customers.

Planning/Zoning Consistency

As an initial matter, it would be reasonable and appropriate for the City to treat this application as a request for an extension of the existing CUP. The original 20-year CUP was issued on November 20, 1984 and the facility has continued to exist without controversy since it was first approved. American Tower and SpectraSite merged this past year and challenges associated with the consolidation of these two large companies resulted in a backlog of tasks including the renewal of this CUP. On its own initiative, American Tower met with the City to discuss the renewal of this and other

PAGE 03/10

CUPs in July 2005. American Tower has met with and has maintained contact with the City throughout the past few months and has expedited its own internal processes in order to file this application in a timely manner consistent with the requests of City staff.

If the City is willing to treat this request as a request for an extension, then, according to San Diego Mun. Code § 126.0111, CUP No. 94-0627 could be extended up to three years on the basis of the following findings:

- (1) *This project as originally approved would not place the occupants of the proposed development or the immediate community in a condition dangerous to their health or safety.*

The facility poses no danger to the occupants of the property or to the community. Arguably, its removal poses a threat both to the area residents and to the traffic on Highway 94 by creating a gap in the provision of wireless communication services in an area where traffic related emergencies are routine. The site meets all applicable Building and Electrical Code requirements and complies with all state and federal regulations, including the FCC's maximum permitted exposure (MPE) requirements.

- (2) *No new condition is required to comply with state or federal law.*

American Tower is not aware of any changes to state or federal law that would require the City to impose additional conditions on the facility.

Other than the fact that the CUP expired before being renewed, neither SpectraSite nor American Tower, nor the Lessee Verizon Wireless, violated any conditions of the CUP.

In the event that the City requires American Tower to obtain a new Conditional Use Permit and Planned Development Permit for this facility, that permit could be issued on the basis of the findings identified in San Diego Mun. Code §§ 126.0604 (Planned Development Permit). In providing the following information, American Tower notes that existing law governing the zoning of wireless telecommunications facilities does not permit the City to exercise unfettered discretion in its determination that a particular facility meets the City's existing zoning requirements. *Sprint Telephony PCS, LP v. County of San Diego*, 377 F.Supp.2d 886 (S.D. Cal. 2005) *motion for recon. denied* (enjoining enforcement of the County wireless telecommunications ordinance and applicable zoning code requirements on wireless telecommunications facilities on the basis of federal preemption). Accordingly, American Tower offers the following information to facilitate the City's review of this application, but in doing so reserves all rights and does not waive any right to any claim or defense, including federal preemption.

Findings Required for a Planned Development Permit

American Tower is requesting the City to permit the continued use of a communications facility that has been operational for over ten years and continuously serving the City of San Diego's vital public and private communications needs. Wireless networks are unusual in that there are significant height and location requirements that must be met to ensure their proper and effective use.

12/21/2005 11:56

3109845132

LAW OFFICE

PAGE 04/10

The City can permit this communications facility at its present height and location with a Planned Development Permit, subject to the following findings:

(1) The proposed development will not adversely affect the applicable land use plan.

The facility has existed on this site for twenty years without controversy. The location, size, design, and operating characteristics of the existing communications facility does not create noise, traffic, or other conditions that may be objectionable, detrimental or incompatible with other permitted uses in the vicinity.

- The facility is located in an CT-2 (commercial) zone on a small hill overlooking Highway 94.
- The equipment associated with the facility operates virtually noise-free.
- The equipment does not emit fumes, smoke, dust, or odors that could be considered objectionable.
- The communications facility is unmanned and requires only periodic maintenance.

(2) The proposed development will not be detrimental to the public health safety and welfare.

The existing communications facility has not created conditions or circumstances contrary to the public health, safety, and the general welfare, in that:

- The existing pole provides opportunity for co-location, reducing the need for other wireless facilities in the area.
- Wireless communications service a critical need in the event of public emergency, including traffic accidents and other freeway incidents.
- Advanced wireless technologies are a use now required local businesses, homes, and schools.
- Digital wireless systems are an economical alternative to wired networks.
- All American Tower facilities operate in full compliance with the regulations and licensing requirements of the FCC, FAA, and CPUC.

(3) The proposed development will comply with the applicable regulations of the Land Development Code.

The communications facility complies with the applicable regulations of the Land Development Code. It was permitted with a Conditional Use Permit in its current location and at its current height. American Tower is proposing no modifications to the communications facility that would alter this finding.

(4) The proposed development, when considered as a whole, will be beneficial to the community.

The proposed facility will benefit the community because it will continue to allow commuters, businesses, and residents within the coverage area wireless access to the

12/21/2005 11:55

3109845132

LAW OFFICE

PAGE 05/10

rapidly expanding communication infrastructure and to voice and data transmission services not currently available.

(5) Any proposed deviations pursuant to § 126.0602(b)(2) are appropriate for this location and will result in a more desirable project than would be achieved if designed in strict conformance with the development regulations of the applicable zone.

The communications facility is appropriately placed. It is adjacent to a major commuter thoroughfare and is located in an area zoned for commercial uses. The monopole and antennas are painted light gray and the equipment buildings are desert tan to blend with the surrounding area. The monopole is partially screened from view by existing mature landscaping.

Moreover, reduction in the height of the antennas on this structure to the zone's 30-foot limitation will seriously impact the quality and scope of coverage provided by Verizon Wireless from this site. The project therefore is more desirable in its present configuration than it would be if the City strictly enforced the development regulations for this zone.

Brief Overview of American Tower Corporation

American Tower Corporation (www.americantower.com) is the leading independent owner, operator and developer of broadcast and wireless communications sites in North America. American Tower owns and operates over 22,000 sites in the United States, Mexico, and Brazil. Additionally, American Tower manages approximately 2,000 revenue producing rooftop and tower sites. American Tower's customers are leading wireless communications providers, including Cingular, Sprint Nextel and Verizon Wireless, radio and television broadcasters, and federal, state and local government agencies.

DETERMINATION OF ENVIRONMENTAL EXEMPTION

Pursuant to the California Environmental Quality Act (CEQA) and State CEQA Guidelines

Agency: CITY OF SAN DIEGO

Project No.: 92067

Date: February 8, 2006

Action/Permit(s): CUP/SDP/PDP

Description of Activity: **Verizon 30th Place** Approval of the proposed project would allow the operation of an existing, expired CUP (84-0469) consisting of a 130 foot high monopole supporting a total of 26 antennas with a 484 square-foot equipment building.

Location of Activity: The project is located at 700 30th Place within the Southeastern San Diego Community Plan, in the City and County of San Diego.

(CHECK BOXES BELOW)

1. ☐ This activity is **EXEMPT FROM CEQA** pursuant to:
- ☐ Section 15061(b) (3) of the State CEQA Guidelines (the activity is not a project as defined in Section 15378).
2. ☒ This project is **EXEMPT FROM CEQA** pursuant to State CEQA Guidelines Section checked below:

Important Instructions to Applicant

California State law requires every permit applicant to provide specific information and certain declarations regarding the proposed work. The following instructions describe who may sign the required declarations.

Licensed Contractor

This statement may be signed by the contractor or a corporate officer of a construction company including President, Vice President, Secretary, Treasurer, Trustee, Chairman of the Board or Responsible Managing Employee (RME). An agent for the contractor may sign only when a letter of authorization from the contractor authorizing the agent to sign is presented at permit issuance. The person signing must list his/her title.

Workers' Compensation Declaration

This statement may be signed by the contractor, owner, tenant, lessee or an authorized agent of one of these. A valid Certificate of Workers' Compensation Insurance must be presented at permit issuance. The certificate:

- Must show the name of the insured.
- Must list the policy number, effective date, and expiration date of the insurance policy.

If item 6.c. is checked, only the contractor or owner may sign this area, **NOT AN AGENT**. This section is signed only when the owner or contractor will have no employees on the job. If, after signing the exemption from the Workers' Compensation provisions of the Labor Code, the contractor or owner-builder should

become subject to such provisions, they must comply with the law. In the event they do not comply with the Workers' Compensation Law, the permit shall be deemed revoked.

Owner-Builder Declaration

This statement may be signed by the owner, lessee, tenant, architect, engineer, licensed pest control operator, or an authorized agent of any of these. In every case, a separate Owner-Builder Verification form (DS-3042) must also be signed by the owner.

Site Justification Letter

Location:	6426 Mt. Ada Road
Zone:	CC-1-3
APN:	419-120-67-00
American Tower/SpectraSite Number	300647/CA-0066
Conditional Use Permit #	CUP No. 83-0629
Permit Expiration Date	11/20/04
Contacts	Robert Jystad, Esq. Tel: 310-209-8515; Fax 310-984-5132 rjystad@sbcglobal.net James Kelly Tel: 949-442-6407; Fax: (949) 474-7260 James.Kelly@americantower.com Doug Kearney Tel: 949-442-6407; Fax: (949) 474-7260 Doug.Kearney@americantower.com

American Tower Corporation requests that the City of San Diego either extend the original Conditional Use Permit, or in the alternative, approve a new Planned Development Permit, consistent with the original Conditions of Approval under Conditional Use Permit Number 83-0629 (*please refer to attached, original CUP*) to continue to operate, and maintain a wireless communication facility at 6426 Mt. Ada Road. The existing communications facility consists of a 26' x 22' equipment building and a 136-foot-high antenna tower with 27 panel antennas and three microwave dish antennas for radio frequency reception and transmission. American Tower is requesting the extension and the Planned Development Permit in order that Lessee, Verizon Wireless, can continue to provide uninterrupted and seamless wireless service to its customers.

Planning/Zoning Consistency

As an initial matter, it would be reasonable and appropriate for the City to treat this application as a request for an extension of the existing CUP. The original 20-year CUP was issued on November 20, 1984 and the facility has continued to exist without controversy since it was first approved. American Tower and SpectraSite merged this past year and challenges associated with the consolidation of these two large companies resulted in a backlog of tasks including the renewal of this CUP. On its own initiative, American Tower met with the City to discuss the renewal of this and other CUPs in July 2005. American Tower has met with and has maintained contact with the

1

Irvine, CA 92612

Exhibit
Page 88 of 89

000871

City throughout the past few months and has expedited its own internal processes in order to file this application in a timely manner consistent with the requests of City staff.

If the City is willing to treat this request as a request for an extension, then, according to San Diego Mun. Code § 126.0111, CUP No. 94-0548 could be extended up to three years on the basis of the following findings:

- (1) *This project as originally approved would not place the occupants of the proposed development or the immediate community in a condition dangerous to their health or safety.*

The facility poses no danger to the occupants of the property or to the community. The site meets all applicable Building and Electrical Code requirements and complies with all state and federal regulations, including the FCC's maximum permitted exposure (MPE) requirements.

- (2) *No new condition is required to comply with state or federal law.*

American Tower is not aware of any changes to state or federal law that would require the City to impose additional conditions on the facility.

Other than the fact that the CUP expired before being renewed, neither SpectraSite nor American Tower, nor the Lessee Verizon Wireless violated any conditions of the CUP.

In the event that the City requires American Tower to obtain a new Planned Development Permit for this facility, that permit could be issued on the basis of the findings identified in San Diego Mun. Code §§ 126.0604 (Planned Development Permit). In providing the following information, American Tower notes that existing law governing the zoning of wireless telecommunications facilities does not permit the City to exercise unfettered discretion in its determination that a particular facility meets the City's existing zoning requirements. *Sprint Telephony PCS, LP v. County of San Diego*, 377 F.Supp.2d 886 (S.D. Cal. 2005) *motion for recon. denied* (enjoining enforcement of the County wireless telecommunications ordinance and applicable zoning code requirements on wireless telecommunications facilities on the basis of federal preemption). Accordingly, American Tower offers the following information to facilitate the City's review of this application, but in doing so reserves all rights and does not waive any right to any claim or defense, including federal preemption.

Findings Required for a Planned Development Permit

American Tower is requesting the City to permit the continued use of a communications facility that has been operational for over twenty years and continuously serving the City of San Diego's vital public and private communications needs. Wireless networks are unusual in that there are significant height and location requirements that must be met to ensure their proper and effective use.

The City can permit this communications facility at its present height and location with a Planned Development Permit, subject to the following findings:

(1) The proposed development will not adversely affect the applicable land use plan.

The facility has existed on this site for twenty years without controversy. The location, size, design, and operating characteristics of the existing communications facility does not create noise, traffic, or other conditions that may be objectionable, detrimental or incompatible with other permitted uses in the vicinity.

- The facility is located adjacent to Balboa Boulevard in a site zone for commercial use.
- The equipment associated with the facility operates virtually noise-free.
- The equipment does not emit fumes, smoke, dust, or odors that could be considered objectionable.
- The communications facility is unmanned and requires only periodic maintenance.

(2) The proposed development will not be detrimental to the public health safety and welfare.

The existing communications facility has not created conditions or circumstances contrary to the public health, safety, and the general welfare, in that:

- The existing pole provides co-location, reducing the need for other wireless facilities in the area.
- Wireless communications service a critical need in the event of public emergency, including traffic accidents and other freeway incidents.
- Advanced wireless technologies are a use now required local businesses, homes, and schools.
- Digital wireless systems are an economical alternative to wired networks.
- All American Tower facilities operate in full compliance with the regulations and licensing requirements of the FCC, FAA, and CPUC.

(3) The proposed development will comply with the applicable regulations of the Land Development Code.

The communications facility complies with the applicable regulations of the Land Development Code. It was permitted with a Conditional Use Permit in its current location and at its current height. American Tower is proposing no modifications to the communications facility that would alter this finding.

(4) The proposed development, when considered as a whole, will be beneficial to the community.

The proposed facility will benefit the community because it will continue to allow commuters, businesses, and residents within the coverage area wireless access to the rapidly expanding communication infrastructure and to voice and data transmission services not currently available.

- (5) Any proposed deviations pursuant to § 126.0602(b)(2) are appropriate for this location and will result in a more desirable project than would be achieved if designed in strict conformance with the development regulations of the applicable zone.

The communications facility is appropriately placed. It is adjacent to a major transportation corridor in the rear of a commercial outlet. The monopole and antennas are painted sky blue and the equipment buildings shrouded in vegetation and blend with the surrounding area. The monopole is partially screened from view by existing mature landscaping.

Moreover, reduction in the height of the antennas on this structure to the zone's height limitation will seriously impact the quality and scope of coverage provide by Sprint Nextel from this site. The project therefore is more desirable in its present configuration than it would be if the City strictly enforced the development regulations for this zone.

Brief Overview of American Tower Corporation

American Tower Corporation (www.americantower.com) is the leading independent owner, operator and developer of broadcast and wireless communications sites in North America. American Tower owns and operates over 22,000 sites in the United States, Mexico, and Brazil. Additionally, American Tower manages approximately 2,000 revenue producing rooftop and tower sites. American Tower's customers are leading wireless communications providers, including Cingular, Sprint Nextel and Verizon Wireless, radio and television broadcasters, and federal, state and local government agencies.

Re: American Tower CUP Renewals

Dear Mr. Waring:

I am writing to you on behalf of American Tower Corporation ("ATC"). ATC participated in the telecommunications meeting that you and Ms. Kris Michell held on February 2, 2006. We appreciated the time you spent with us and your attention to our concerns about the Conditional Use Permit ("CUP") permitting process.

We recognize that wireless consultant Doug Sain is working with your office on this and other issues on behalf of several major wireless carriers. Unfortunately for us, time is running short and we are compelled to contact you directly. Last summer, American Tower was forthcoming with the City's Development Services Department ("DSD") about its need to renew a number of CUPs for several monopolies it owns and manages throughout the City. As you are aware, and as we discussed on Feb. 2, the City is not permitting ATC to file for the renewal of its CUPs. Rather, because the CUPs have expired, the City is requiring ATC to file applications for new permits, which in several cases require Planned Development Permits and/or Site Development Permits in addition to the CUPs. ATC coordinated with DSD on the submission of eight new CUP applications prior to the end of 2005 and we are in receipt DSD's assessment letters on most of those applications. The conclusions drawn in these letters are extremely troubling, and, as a result, we met on Tuesday, February 21, 2006, with Senior Planner Karen Lynch Ashcraft to discuss the City's demands. Ms. Lynch Ashcraft confirmed that if American Tower is not willing to meet the requirements outlined in the assessment letters, DSD staff will recommend denial of the permits.

I have listed below some examples of DSD's demands in the assessment letters. The demands are taken from assessment letters on two sites, but they are substantially similar to language in other assessment letters. The first site, Mission San Diego, is a small shelter constructed on a hillside overlooking Qualcomm stadium and Interstate 15. There is no

monopole. The antennas are affixed to small poles at the height of the shelter, about 15 feet. On February 15, 2006, ATC met with the Kearney Mesa Planning Group about this site. The Group recommended approval of the site AS IS by a vote of 10-0-1, noting that the site was hardly visible.

The second site, San Diego Border, is a 90' foot monopole located in a maintenance yard owned by the San Ysidro School District. The site overlooks Interstate 805 near the Mexican border. On February 21, 2006, ATC met with the San Ysidro Planning and Development Group, which unanimously approved the site AS IS on condition that ATC agree to paint the pole a light tan color to blend in with the adjacent hillside. One member stated: "I am certainly not going to require them to take it down."

The reasonableness of these two Community Planning Groups stands in stark contrast to the DSD assessment letters, which have drawn the following conclusions, among others:

1. [Mission San Diego]: "The location, above a busy transit corridor is highly visible, creating a significant visual impact from all vantage points. The Code requires that a facility be designed to minimize visual impacts by designing the facility so that it is concealed from public view..."
2. Mission San Diego requires a Site Development Permit unless "the project is redesigned to comply with the exemption criteria...pertaining to setbacks..." In order to meet the setback requirement, ATC will need to relocate the facility off the hillside and into the adjacent residential neighborhood.
3. [Mission San Diego]: "Understanding that the network was built around this facility, it should also be recognized that the Planning Commission imposed a 10-year restriction because it was intended that if there were a better design or technical option available at the end of the time limit, *the facility would be required to be removed.*"
4. [San Diego Border]: "The prominent location of this property does not lend itself to a 90-foot high monopole or to an institutional equipment shelter."
5. [San Diego Border]: "With the significant improvements that have been in both the design and technical disciplines, it is expected that this facility *will be replaced...*"
6. [San Diego Border]: "Since the original CUP is expired, this proposal is being reviewed against today's regulations and policies and therefore a *thorough technical analysis...* will be required."
7. [San Diego Border]: "A detailed site justification...will be required."
8. [San Diego Border]: "Understanding that the network was built around this facility, it should also be recognized that the Planning Commission imposed a 10-year restriction

Letter to: Mr. James Waring, Esq.
Date: March 3, 2006
Page 3

because it was intended that if there were a better design or technical option available at the end of the time limit, *the pole would be required to be removed.*"

As we discussed on Feb. 2, if the City requires ATC to take these sites down, the carriers they support, including Verizon Wireless, Cingular Wireless and Sprint Nextel, will be forced to reconfigure their networks and to construct several additional sites. Moreover, if DSD is successful in having these sites removed, ATC faces a significant loss of property and will find itself effectively barred from providing services in the City. That said, we are encouraged that the City is willing to consider ATC as part of a solution to its public communications system needs at the Encanto Reservoir location. We will work with DSD and READ on a possible collocation solution on an ATC structure. We note that the City has requested a height of 110 feet for its antennas. We expect to be able to accommodate that request but there is an obvious inconsistency between that request and DSD's demand that ATC and its tenants reduce the height of antennas on its structures or face denial.

ATC cannot take this situation lightly and it is supported by several recent federal court rulings. From our perspective, DSD is taking liberty with the City's ordinances and policies on wireless telecommunications facilities in a manner that we believe is unfair and justifies the type of federal restrictions on local authority that have emerged in several pivotal telecommunications cases. For example, the City's policies and ordinances are substantially similar to San Diego County's wireless telecommunications ordinance that the Southern District permanently enjoined, though the injunction recently was stayed pending appeal. *Sprint Telephony PCS, L.P. v. County of San Diego*, 377 F. Supp. 2d 886 (S.D. Cal. 2005) (County's exercise of unfettered discretion over permits for wireless telecommunications facilities violated federal law). In *County of San Diego*, Sprint successfully argued that federal law (47 U.S.C. § 253) preempted the County's four-tiered application structure and applicable discretionary zoning requirements. Notably, the City's ordinance utilizes a similar four tiered structure.¹

In finding that § 253 preempted the San Diego County WTO, *County of San Diego* relied heavily on *City of Auburn v. Qwest Corporation*, 260 F.3d 1160, 1175 (9th Cir. 2001) *cert. denied* *City of Tacoma v. Qwest Corp.*, 534 U.S. 1079 (2002) ("The preemption [of local authority] is **virtually absolute** and its purpose is clear—certain aspects of telecommunications regulation are uniquely the province of the federal government and Congress has narrowly circumscribed the role of state and local governments in this arena") (emphasis added) and *Qwest Communications Corp. v. City of Berkeley*, 146 F. Supp. 2d 1081, 1097-98 (N.D. Cal. 2001) (striking as preempted under § 253 a local ordinance that vested significant discretion to grant or deny permits "based on an open-ended set of criteria and requirements"). The Ninth Circuit recently upheld the *Berkeley* decision noting "We have interpreted this preemptive language to be clear and "virtually absolute" in restricting municipalities to a "very limited and proscribed role in the regulation of telecommunications." *Qwest Communs., Inc. v. City of Berkeley*, 2006 U.S. App. LEXIS 669 at *5-6 (9th Cir., filed Jan 6, 2006).

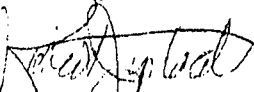

¹ We asked Ms. Lynch-Ashcraft if *County of San Diego* had any impact on DSD's process. She said it did not.

Letter to: Mr. James Waring, Esq.
Date: March 3, 2006

ATC looks forward to working with you and the City to address this problem. We are optimistic that there is a workable solution, but not without a substantial change in the DSD's approach to CUP renewals.

Please contact me at your earliest convenience to discuss this matter further. I can be reached at (310) 209-8515 or rjystad@sbcglobal.net.

Sincerely,

Robert Jystad, Esq.

(B) Limitations on the number of on-premises fund-raising or social activities to a specific number of occurrences each year.
(Added 12-9-1997 by O-18451 N.S.; amended 10-18-1999 by O-18691 N.S.; effective 1-1-2000.)

§141.0405 Communication Antennas

- (a) Section 141.0405 regulates the following communication antennas. Amateur (HAM) radio facilities or temporary telecommunication facilities necessitated by natural or man-made disasters are not regulated as communication antennas. Section 141.0405 does not apply to single dish antennas smaller than 24 inches in diameter or to remote panel antennas less than 24 inches in length and in width, except when associated with another telecommunication facility.
- (1) Minor telecommunication facilities: Antenna facilities used in wireless telephone services, paging systems, or similar services that comply with all development regulations of the underlying zone and overlay(s) and that meet the criteria in Section 141.0405(e)(1) or (2).
 - (2) Major telecommunication facilities: Antenna facilities that do not meet the criteria for minor telecommunication facilities in Section 141.0405(e)(1) or (2).
 - (3) Satellite antennas: Antennas capable of transmitting or receiving signals to or from a transmitter or a transmitter relay located in a planetary orbit. Satellite antennas include satellite earth stations, television-reception-only satellite antennas, and satellite microwave antennas.
- (b) General Rules for Telecommunication Facilities
All telecommunication facilities must comply with the following requirements:
- (1) All approved telecommunication facilities must comply with the Federal standards for RF radiation in accordance with the Telecommunication Act of 1996 or any subsequent amendment to the Act pertaining to RF radiation. Documentation shall be submitted to the City providing evidence that the cumulative field measurements of radiofrequency power densities for all antennas installed on the premises are below the Federal standards.

San Diego Municipal Code
(12-2001)

Chapter 14: General Regulations

- (2) Except in the event of an emergency, routine maintenance and inspection of telecommunication facilities located on residentially zoned *premises*, including all of the system components, shall occur during normal business hours between 8:00 a.m. and 5:00 p.m. Monday through Friday.
- (3) Antenna facilities or associated equipment proposed for installation in the *public right-of-way* are subject to the following regulations:
 - (A) Antennas or associated equipment located in *public right-of-way* which is adjacent to a residentially zoned *premises* may be permitted with a Neighborhood Use Permit.
 - (B) Antennas and associated equipment located in the *public right-of-way* adjacent to non-residentially zoned *premises* are subject to review and approval by the City Manager.
 - (C) All equipment associated with antenna facilities shall be undergrounded, except for small services connection boxes or as permitted in Section 141.0405(b)(4).
 - (D) A construction plan must be submitted to and is subject to review and approval by the City Engineer in accordance with Chapter 6, Article 2.
- (4) Antennas and associated equipment located in the *public right-of-way* may be placed above ground only if the equipment is integrated into the architecture or surrounding environment through architectural enhancement (enhancements that complement the scale, texture, color, and style), unique design solutions, enhanced landscape architecture, or complementary siting solutions to minimize visual or pedestrian impacts. These facilities may be permitted with a Conditional Use Permit decided in accordance with Process Three.
- (c) Temporary facilities that provide services to public events and are limited to a one-time maximum duration of 90 calendar days are subject to the temporary use permit procedures in Chapter 12, Article 3, Division 4.
- (d) All telecommunication facilities that are required to obtain encroachment authorization to locate on city-owned dedicated or designated parkland or open space areas shall comply with the following:

Ch.	Art.	Div.
14	1	4 3

- (1) The City Manager shall determine that the proposed facility would not be detrimental to the City's property interest; would not preclude other appropriate uses; would not change or interfere with the use or purpose of the parkland or open space; and would not violate any deed restrictions related to City property, map requirements or other land use regulations.
- (2) The proposed facility shall be integrated with existing park facilities or open space; shall not disturb the environmental integrity of the parkland or open space; and shall be disguised such that it does not detract from the recreational or natural character of the parkland or open space.
- (3) The proposed facility shall be consistent with The City of San Diego Progress Guide and General Plan.

(e) Minor Telecommunication Facilities

Minor telecommunication facilities are permitted as a limited use or may be permitted with a Neighborhood Use Permit in the zones indicated with an "L" or an "N", respectively, in the Use Regulations Tables in Chapter 13, Article 1 (Base Zones) subject to the following regulations.

- (1) An antenna facility will be considered a minor telecommunication facility if the facility, including equipment and *structures*, is concealed from public view or integrated into the architecture or surrounding environment through architectural enhancement (enhancements that complement the scale, texture, color, and style), unique design solutions, or *accessory use structures*.
- (2) In an effort to encourage collocation and to recognize that some telecommunication facilities are minimally visible, the following shall be considered minor telecommunication facilities:
 - (A) Additions or modifications to telecommunication facilities that do not increase the area occupied by the antennas or the existing antenna enclosure by more than 100 percent of the originally approved facility and do not increase the area occupied by an outdoor equipment unit more than 150 feet beyond the originally approved facility, if the additions and modifications are designed to minimize visibility.

- (B) Panel-shaped antennas that are flush-mounted to an existing *building facade* on at least one edge, extend a maximum of 18 inches from the *building facade* at any edge, do not exceed the height of the building, and are designed to blend with the color and texture of the existing building.
- (C) Whip antennas if the number of antennas that are visible from the *public right-of-way* does not exceed six, if the antennas measure 4 inches or less in diameter, and if they have a mounting apparatus that is concealed from public view.
- (3) Minor telecommunication facilities are not permitted in the following locations:
 - (A) On *premises* that are developed with residential uses in residential zones;
 - (B) On vacant *premises* zoned for residential development;
 - (C) On *premises* that have been designated as *historical resources*;
 - (D) On *premises* that have been designated or mapped as containing sensitive resources;
 - (E) On *premises* within the *MHPA*; or
 - (F) On *premises* that are leased for billboard use.
- (4) The installation of a minor telecommunication facility shall not result in the elimination of required parking spaces.
- (5) Minor telecommunication facilities that terminate operation shall be removed by the operator within 90 calendar days of termination.
- (f) Major Telecommunication Facilities

Major telecommunication facilities may be permitted with a Conditional Use Permit decided in accordance with Process Three, except that major telecommunication facilities on dedicated or designated parkland and open space may be permitted with a Conditional Use Permit decided in accordance with Process Five, in the zones indicated with a "C" in the Use Regulations

Tables in Chapter 13, Article 1 (Base Zones) subject to the following regulations.

- (1) Major telecommunication facilities are not permitted in the following locations:
 - (A) On *premises* containing designated *historical resources*;
 - (B) Within viewsheds of designated and recommended State Scenic Highways and City Scenic Routes; or
 - (C) Within ½ mile of another major telecommunication facility, unless the proposed facility will be concealed from public view or integrated into the architecture or surrounding environment through architectural enhancement (enhancements that complement the scale, texture, color, and style), unique design solutions, and *accessory use structures*.
 - (D) Within the Coastal Overlay Zone, on *premises* within the MHPA and/or containing *steep hillsides* with *sensitive biological resources*, or within public view corridors or view sheds identified in applicable *land use plans*.
- (2) Major telecommunication facilities shall be designed to be minimally visible through the use of architecture, landscape architecture, and siting solutions.
- (3) Major telecommunication facilities shall use the smallest and least visually intrusive antennas and components that meet the requirements of the facility.

(g) Satellite Antennas

Satellite antennas are permitted as a limited use subject to Section 141.0405(g)(2), and may be permitted with a Neighborhood Use Permit subject to Section 141.0405(g)(3), or with a Conditional Use Permit decided in accordance with Process Three subject to Section 141.0405(g)(4).

- (1) Exemption. Satellite antennas that are 5 feet in diameter or smaller are permitted in all zones and are exempt from this section.

- (2) Limited Use Regulations. Satellite antennas that exceed 5 feet in diameter are permitted as a limited use in the zones indicated with an "L" in the Use Regulations Tables in Chapter 13, Article 1 (Base Zones) subject to the following regulations.
- (A) Satellite antennas are not permitted within the *MHPA*.
 - (B) Satellite antennas are not permitted on *premises* that have been designated as *historical resources*.
 - (C) Satellite antennas shall not exceed 10 feet in diameter.
 - (D) Ground-mounted satellite antennas shall not exceed 15 feet in *structure height*.
 - (E) Ground-mounted satellite antennas shall not be located in the *street yard*, *front yard*, or *street side yard* of a *premises*.
 - (F) Satellite antennas shall not be light-reflective.
 - (G) Satellite antennas shall not have any *sign copy* on them nor shall they be illuminated.
 - (H) Ground-, roof-, and pole-mounted satellite antennas shall be *screened* by fencing, buildings, or parapets that appear to be an integral part of the building, or by landscaping so that not more than 25 percent of the antenna height is visible from the *grade* level of adjacent *premises* and adjacent *public rights-of-way*.
- (3) Neighborhood Use Permit Regulations. Proposed satellite antennas that do not comply with Section 141.0405(b)(2) may be permitted with a Neighborhood Use Permit subject to the following regulations.
- (A) Satellite antennas are not permitted within the *MHPA*.
 - (B) Satellite antennas are not permitted on *premises* that have been designated as *historical resources*.
 - (C) Satellite antennas shall not exceed 10 feet in diameter.
 - (D) Satellite antennas shall not be light-reflective.

- (E) Satellite antennas shall not have any *sign copy* on them nor shall they be illuminated.
- (F) The visual impacts of the antenna to adjacent *premises* and adjacent *public rights-of-way* shall be minimized by the positioning of the antenna on the site and the use of landscape or other *screening*.
- (4) Conditional Use Permit Regulations. Except for proposed satellite antennas which are *accessory uses* in industrial zones, proposed satellite antennas that exceed 10 feet in diameter may be permitted only with a Conditional Use Permit decided in accordance with Process Three subject to the following regulations.
 - (A) Satellite antennas are not permitted within the *MHPA*.
 - (B) Satellite antennas are not permitted on *premises* or its appurtenances that have been designated as *historical resources*.
 - (C) The visual impacts of the antenna to adjacent *premises* and adjacent *public rights-of-way* shall be minimized by the positioning of the antenna on the site and the use of landscaping or other *screening*.

(Amended 1-9-2001 by O-18910 N.S.; effective 8-8-2001.)

§141.0406 Correctional Placement Centers

Correctional placement centers may be permitted with a Conditional Use Permit decided in accordance with Process Four in the zones indicated with a "C" in the Use Regulations Tables in Chapter 13, Article 1 (Base Zones) subject to the following regulations.

- (a) Correctional placement centers are not permitted in any of the following locations:
 - (1) Within the beach impact area of the Parking Impact Overlay Zone;
 - (2) Within 1/4 mile of any type of residential care facility, *social service institution*, welfare institution, or similar type of facility, measured from *property line* to *property line* in accordance with Section 113.0225;

THE CITY OF SAN DIEGO

DATE OF NOTICE: June 14, 2007

NOTICE OF PUBLIC HEARING PLANNING COMMISSION

DATE OF HEARING:	June 28, 2007
TIME OF HEARING:	9:00 A.M.
LOCATION OF HEARING:	Council Chambers, 12th Floor, City Administration Building, 202 C Street, San Diego, California 92101
PROJECT TYPE:	Conditional Use Permit/Planned Development Permit
PROJECT NUMBER:	92067
PROJECT NAME:	<u>AMERICAN TOWER - 30TH PLACE</u>
APPLICANT:	Jim Kelly, American Tower Corporation
COMMUNITY PLAN AREA:	Southeastern San Diego
COUNCIL DISTRICT:	District 8
CITY PROJECT MANAGER:	Karen Lynch-Ashcraft, Development Project Manager
PHONE NUMBER:	(619) 446-5351

As a property owner, tenant or person who has requested notice, you should know that the Planning Commission will hold a public hearing to approve, conditionally approve, or deny an application for a wireless communication facility consisting of an existing 130 foot high monopole and a 500 square foot equipment shelter, originally approved by CUP No. 84-0469, which expired on November 20, 2004. The facility is located at 797 1/3 30th Place between Highway-94 and G Street.

The decision of the Planning Commission is final unless the project is appealed to the City Council. In order to appeal the decision of the Planning Commission you must be present at the public hearing and file a speaker slip concerning the application or have expressed interest by writing to the Planning Commission before the close of the public hearing. To file an appeal, contact the City Clerk at 202 "C" Street, Second Floor. The appeal must be made within 10 working days of the Planning Commission decision. If you wish to challenge the City's action on the above proceedings in court, you may be limited to addressing only those issues you or someone else have raised at the public hearing described in this notice, or written in correspondence to the City at or before the public hearing.

City of San Diego

NOTICE OF PUBLIC HEARING APPEAL TO CITY COUNCIL DEVELOPMENT SERVICES DEPARTMENT

As a property owner, tenant, or person who has requested notice, you should know that a public hearing will be held by the City Council to consider an appeal on an application for a wireless communication facility consisting of an existing 130 foot high monopole and a 500 square foot equipment shelter, originally approved by CUP No. 84-0469, which expired on November 20, 2004. The project site is located at 797 1/3 30th Place. **The decision of the City Council is final.**

DATE OF HEARING:	September 24, 2007
TIME OF HEARING:	2:00 P.M.
LOCATION OF HEARING:	Council Chambers, 12th Floor, City Administration Building, 202 C Street, San Diego, CA 92101
PROJECT TYPE:	Conditional Use Permit and Planned Development Permit
PROJECT NUMBER:	92067
PROJECT NAME:	<u>AMERICAN TOWER CORPORATION - 30TH PLACE</u>
APPLICANT NAME:	Jim Kelly, American Tower Corporation
COMMUNITY PLANNING AREA:	Southeastern San Diego
COUNCIL DISTRICT:	District 8
CITY PROJECT MANAGER:	Karen Lynch-Ashcraft, Development Project Manager
PHONE NUMBER:	(619) 446-5351

If you wish to challenge the City's action on the above proceedings in court, you may be limited to addressing only those issues you or someone else have raised at the public hearing described in this notice, or written correspondence to the City at or before the public hearing.

This project was determined to be categorically exempt from the California Environmental Quality Act on February 8, 2006 and the opportunity to appeal that determination ended February 23, 2006.

If you have any questions about this matter, you may contact the City Project Manager listed above.

THE CITY OF SAN DIEGO

NOTICE OF PUBLIC HEARING CITY COUNCIL

DATE OF HEARING:	September 24, 2007
TIME OF HEARING:	2:00 P.M.
LOCATION OF HEARING:	Council Chambers, 12th Floor, City Administration Building, 202 C Street, San Diego, California 92101
PROJECT TYPE:	Conditional Use Permit and Site Development Permit
PROJECT NUMBER:	91178
PROJECT NAME:	<u>AMERICAN TOWER CORPORATION – MT. ADA</u>
APPLICANT:	Jim Kelly, American Tower Corporation
COMMUNITY PLAN AREA:	Clairemont Mesa
COUNCIL DISTRICT:	District 6
CITY PROJECT MANAGER:	Karen Lynch-Ashcraft, Development Project Manager
PHONE NUMBER:	(619) 446-5351

As a property owner, tenant, or person who has requested notice, you should know that a public hearing will be held by the City Council to consider an application for a wireless communication facility consisting of an existing, expired 145 foot high monopole and a 572 square foot equipment shelter, originally approved by CUP No. 83-0629, which expired on November 20, 2004. The facility is located at 6426 Mt. Ada Road between Mt. Rias Place and Mt. Albertine Avenue. **The decision of the City Council is final.**

If you wish to challenge the City's action on the above proceedings in court, you may be limited to addressing only those issues you or someone else have raised at the public hearing described in this notice, or written correspondence to the City at or before the public hearing.

This project was determined to be categorically exempt from the California Environmental Quality Act on January 23, 2006 and the opportunity to appeal that determination ended February 7, 2006.

If you have any questions about this matter, you may contact the City Project Manager listed above.

Date of Notice: September 6, 2007
